*Project 07 ..... Page 10*

*Project 08 ..... Page 11*

# PROJECT 01.

## Golden Bar...

*The Golden Bar blends warm tones, sleek detailing, and ambient lighting to craft a refined, inviting atmosphere. The arched shelving and illuminated displays frame the premium collection with symmetry and depth, while every material and light choice elevates the space into a modern, high-end experience.*

# PROJECT 02.

## Modern Heights...

*Modern Heights showcases a sleek balance of minimalism and warmth, where clean lines meet rich textures. Neutral tones, natural light, and refined finishes create a calm yet sophisticated living space, while the seamless kitchen design ties functionality with a contemporary, high-end feel.*

Client: Inskip Interiors

# PROJECT 03.

## Green Dining...

*Green Dining celebrates nature within a refined dining space, blending lush greenery with warm tones and elegant curves. The large arched windows flood the interior with natural light, while hanging planters and soft seating create a fresh, vibrant atmosphere that feels both modern and inviting.*

# PROJECT 04.

## Home Gym Barn Conversion...

*Home Gym Barn Conversion reimagines a rustic barn into a sleek, modern fitness space. Warm timber and large glazing open the interior, while the versatile layout supports a full range of equipment in a bright, motivating environment setting.*

Client: Jalen Noble

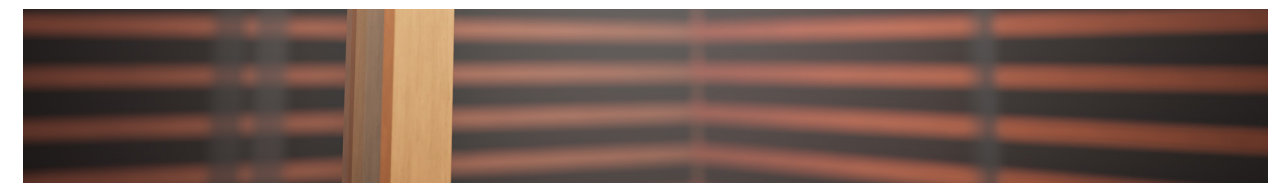

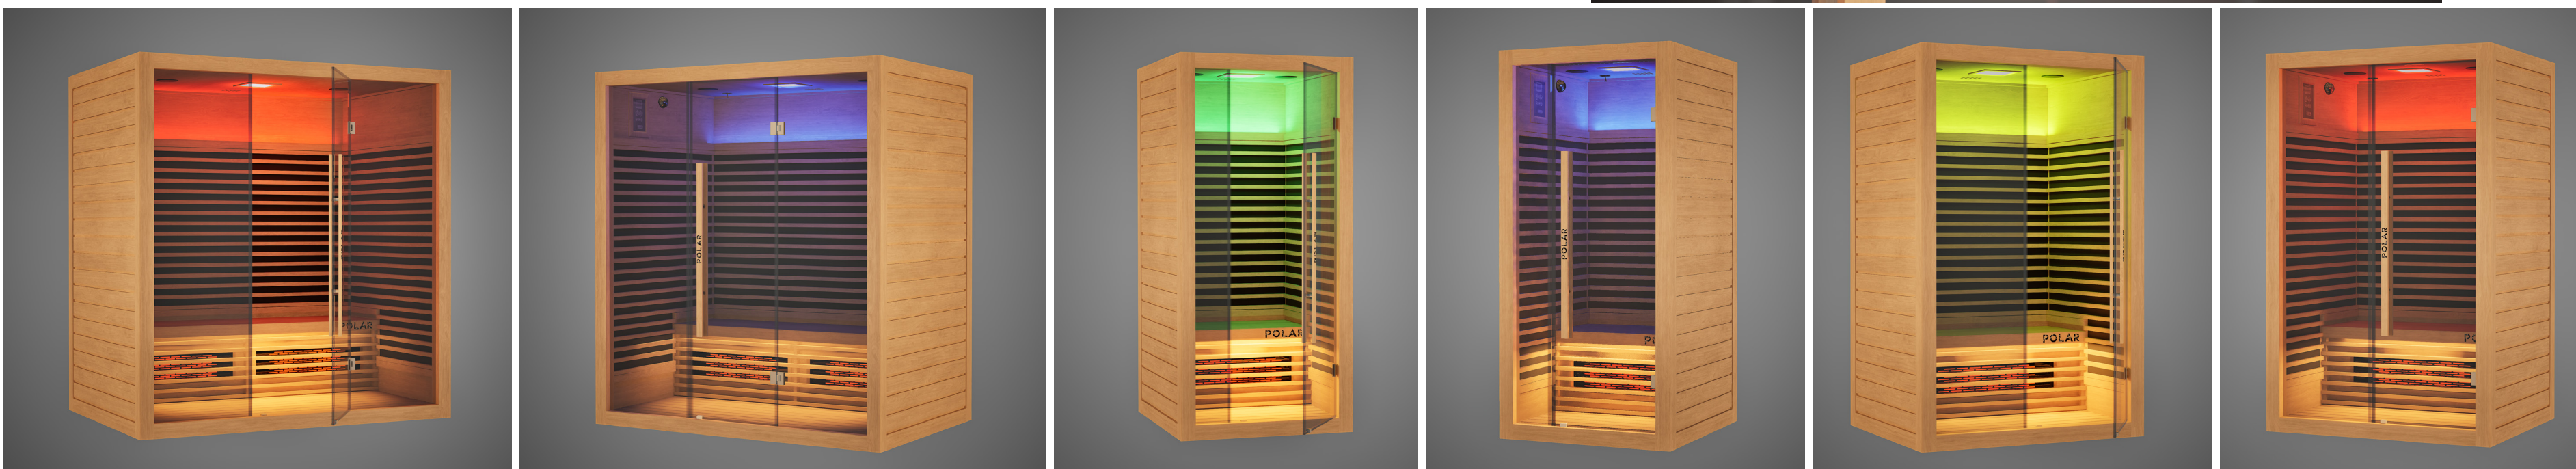

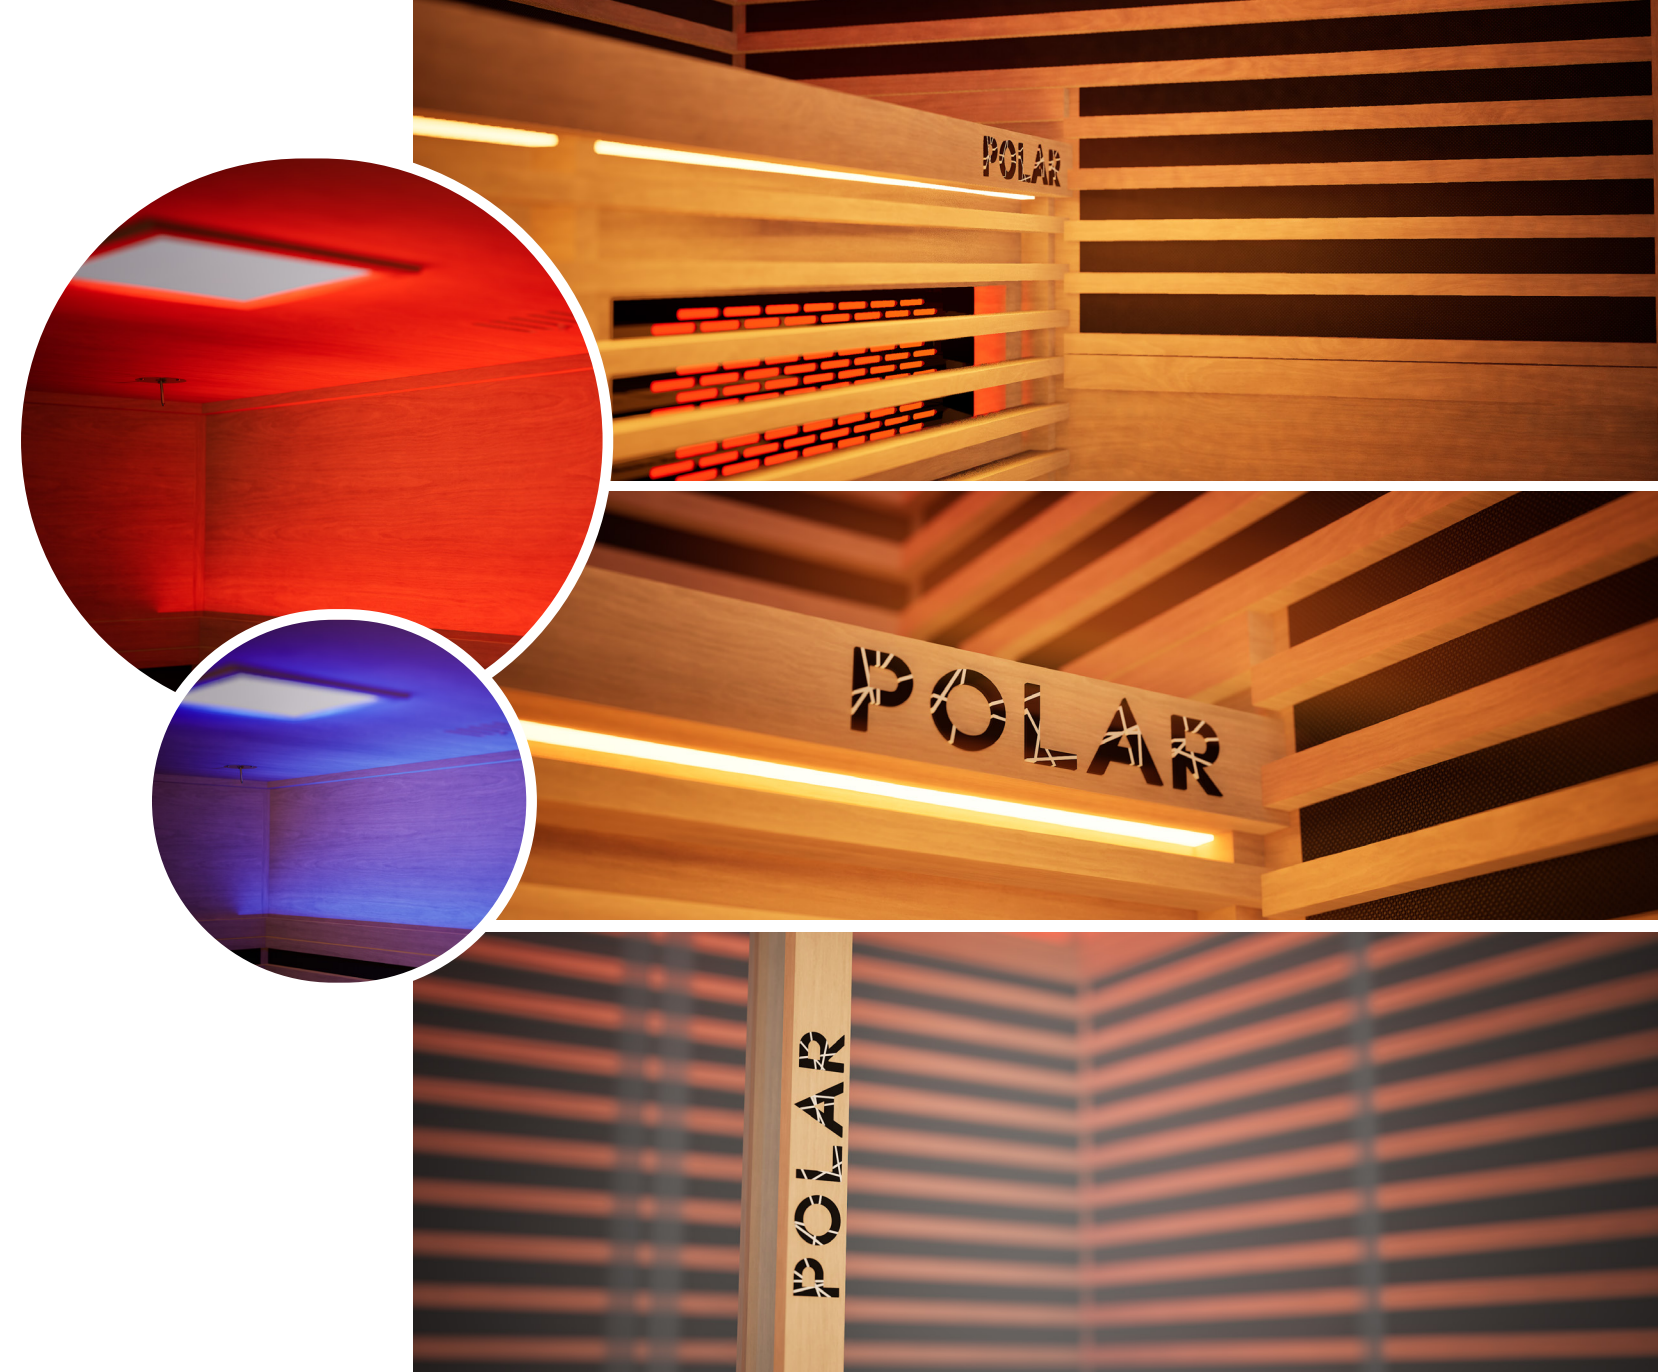

# PROJECT 05.

## POLAR Sauna Project 01...

*POLAR Sauna Project 01 combines clean lines, natural wood, and dynamic lighting to create a sleek wellness space. The design balances warmth and modernity, with customizable lighting that transforms the atmosphere and enhances the user's experience.*

Client: Mike Hughes @ Polar Recovery

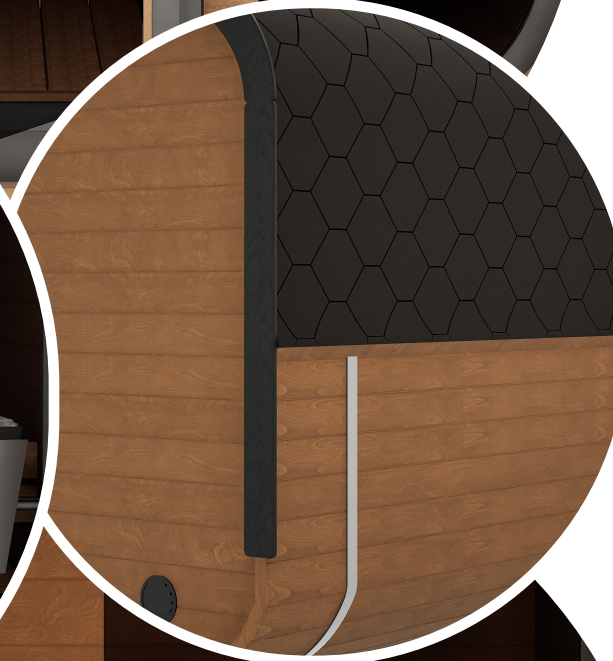

# PROJECT 06.

## POLAR Sauna Project 02...

*POLAR Sauna Project 02 takes a modern approach to wellness, pairing bold exterior forms with a warm, timber-lined interior. Available in a range of sizes, the compact yet versatile design adapts to different spaces, while premium finishes and careful detailing create an intimate retreat with comfort and style.*

Client: Mike Hughes @ Polar Recovery

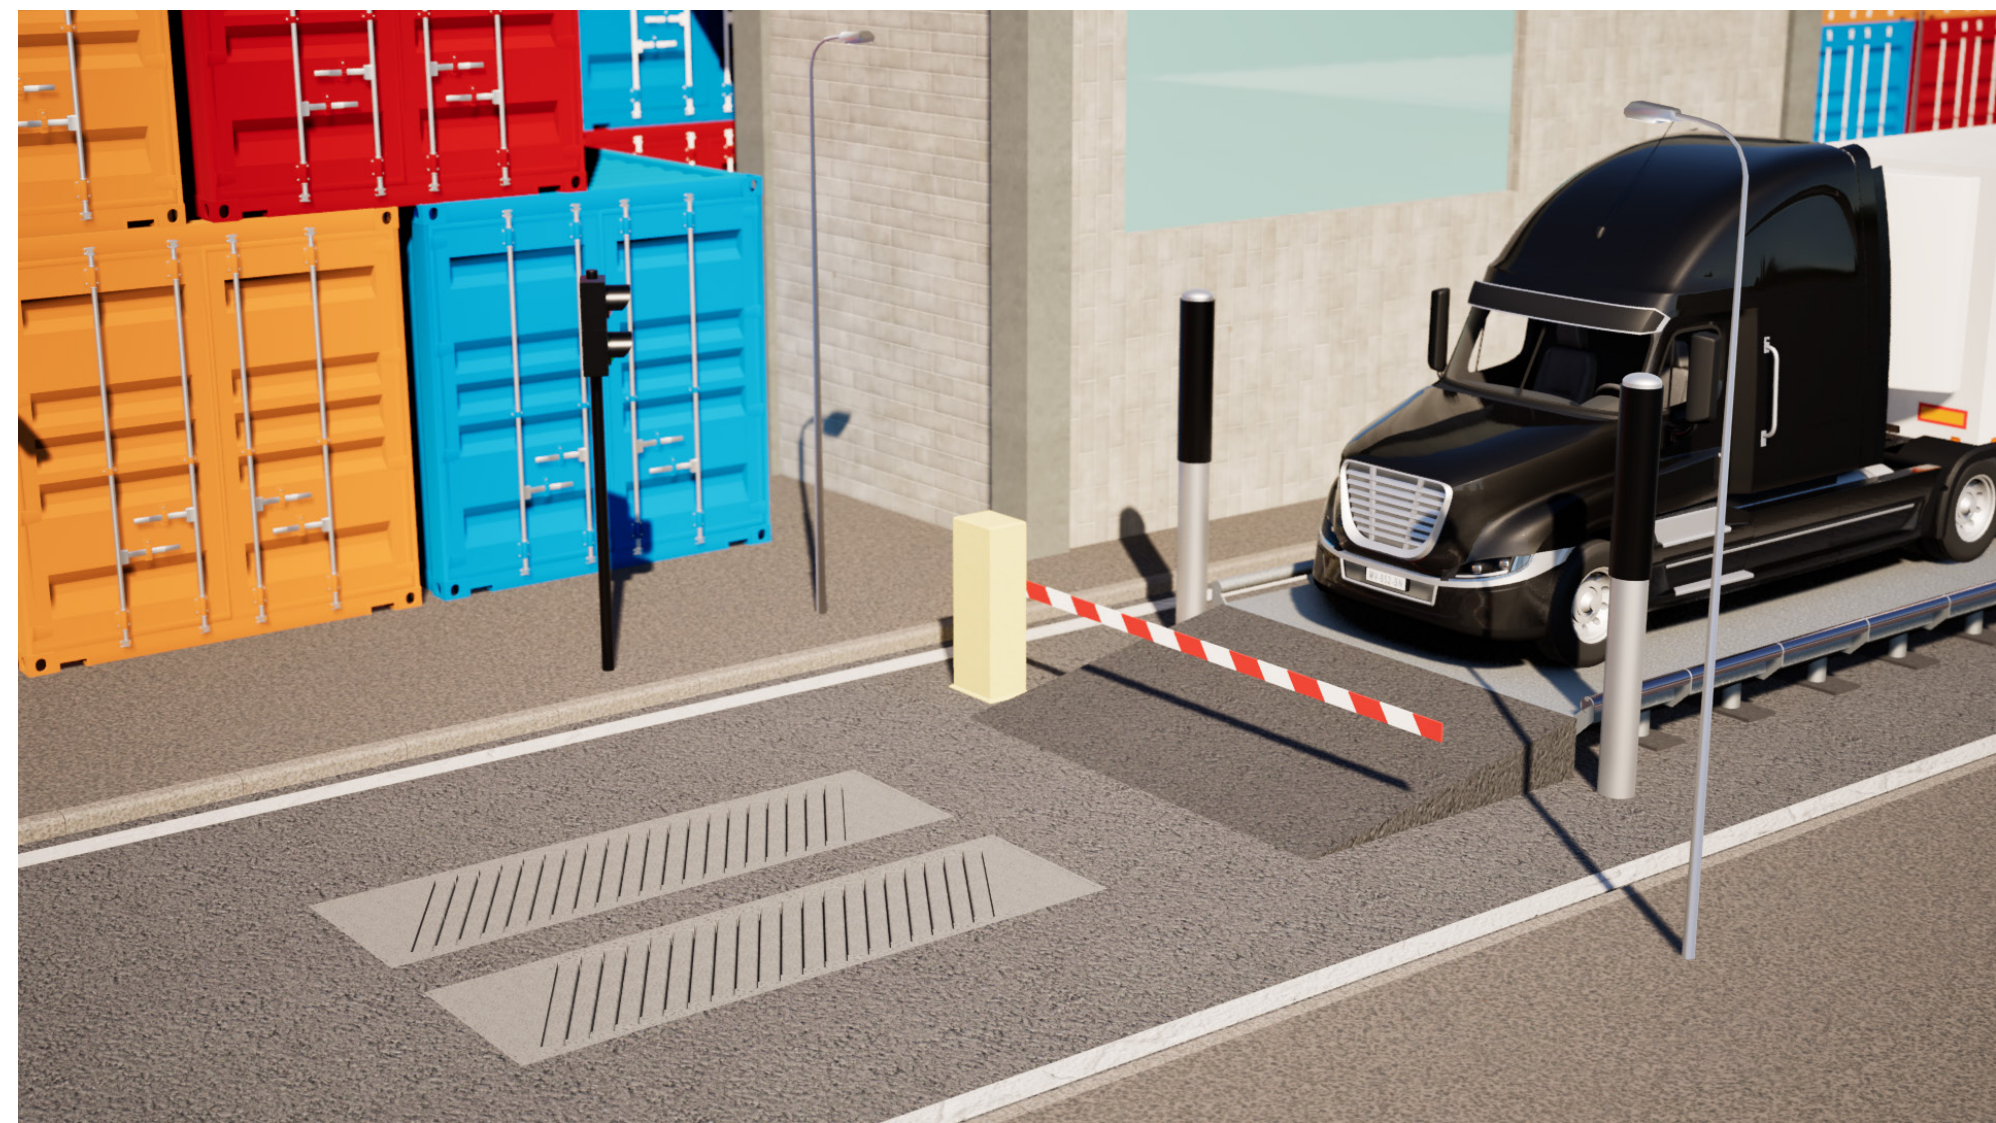

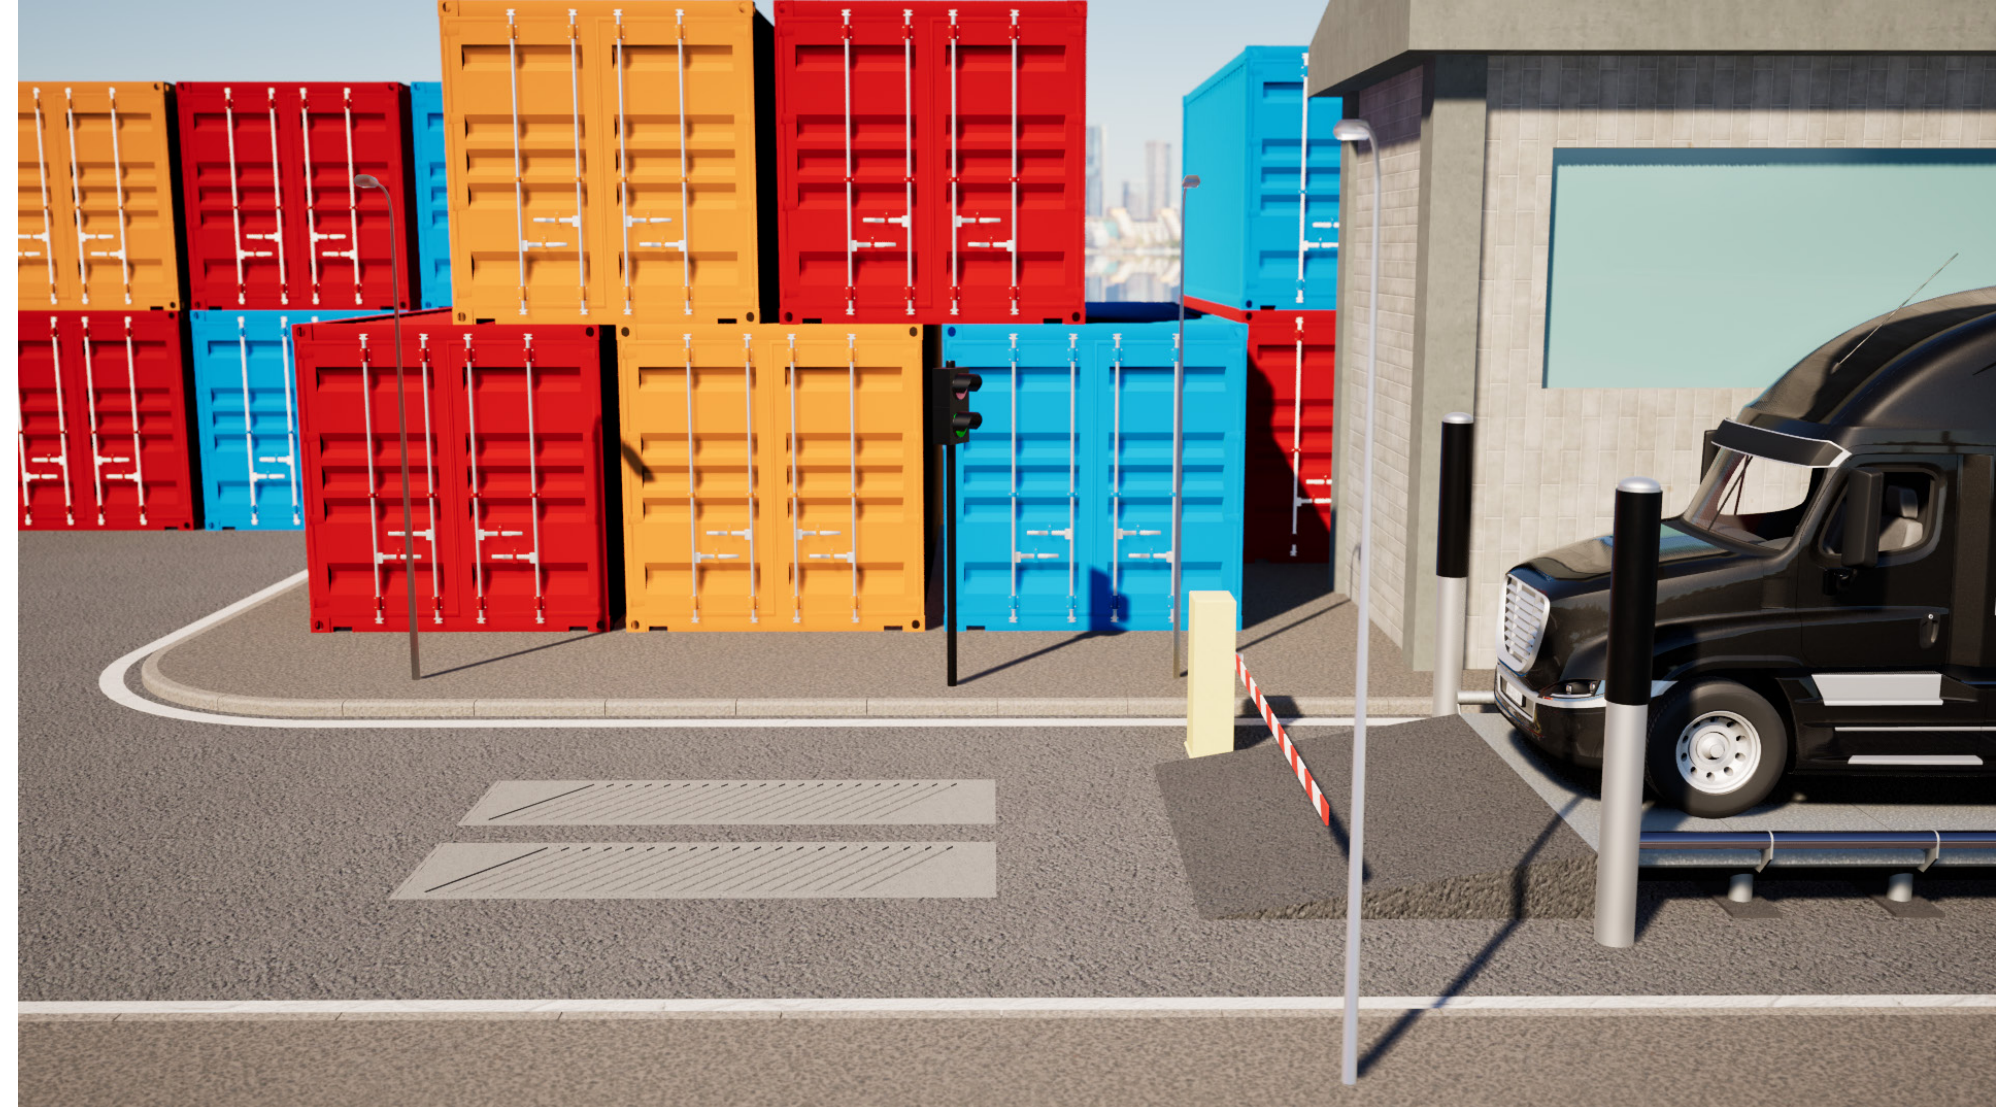

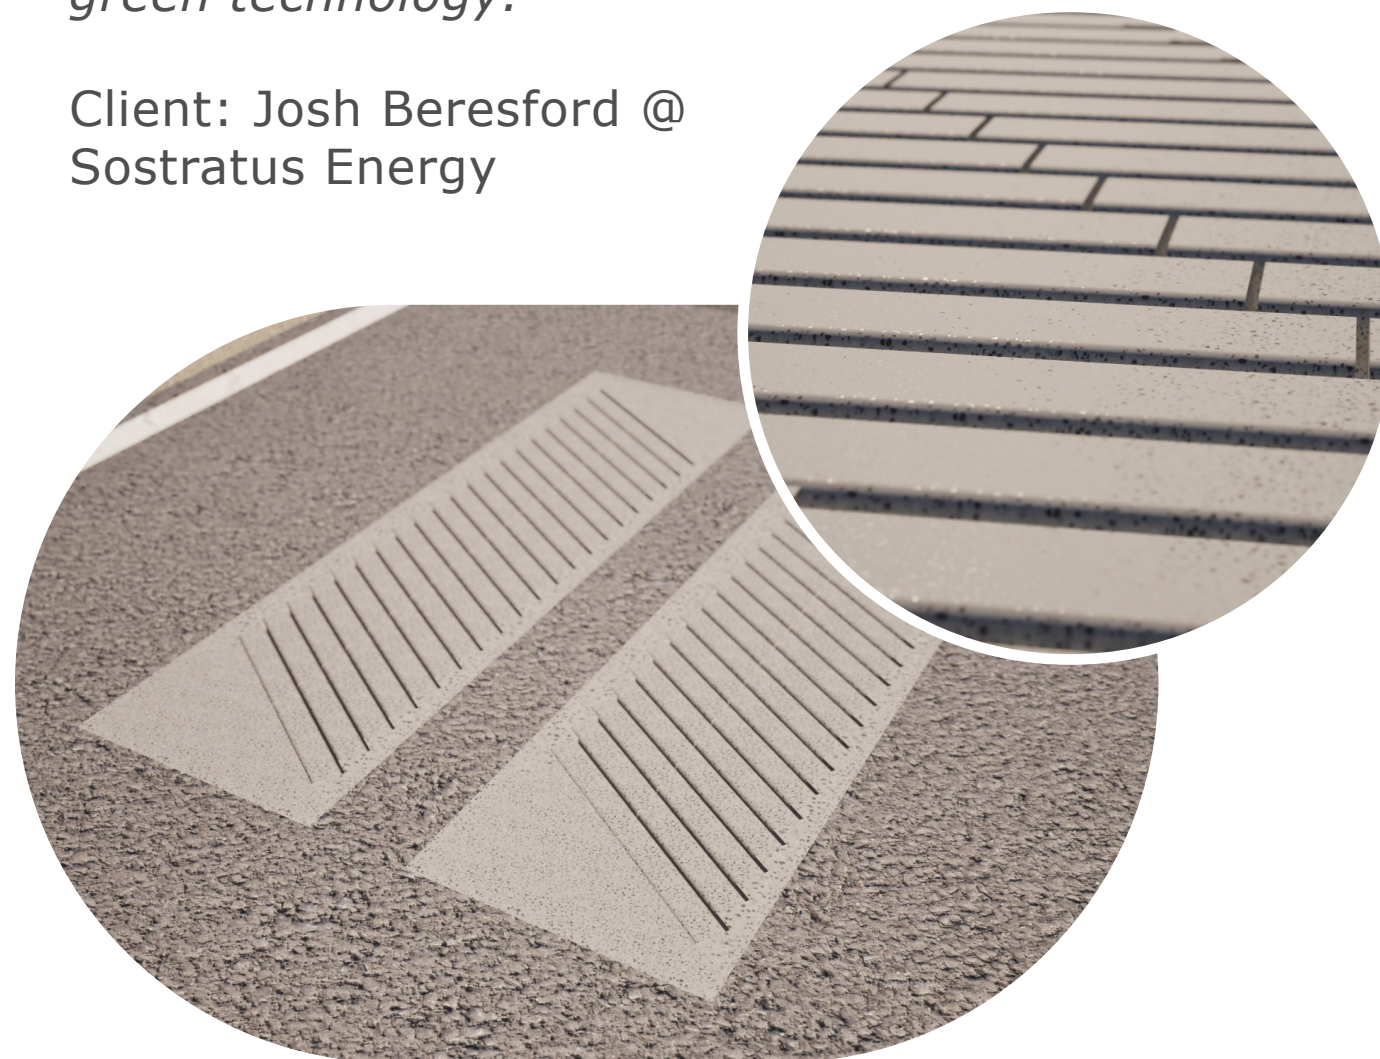

# PROJECT 07.

## Sostratus Energy Project 01...

*Sostratus Energy Project 01 introduces innovative ground panels that generate clean energy as vehicles drive over them. Designed in heavy-duty versions for high-traffic industrial sites, these systems turn everyday movement into a reliable source of sustainable power, blending functionality with green technology.*

Client: Josh Beresford @  
Sostratus Energy

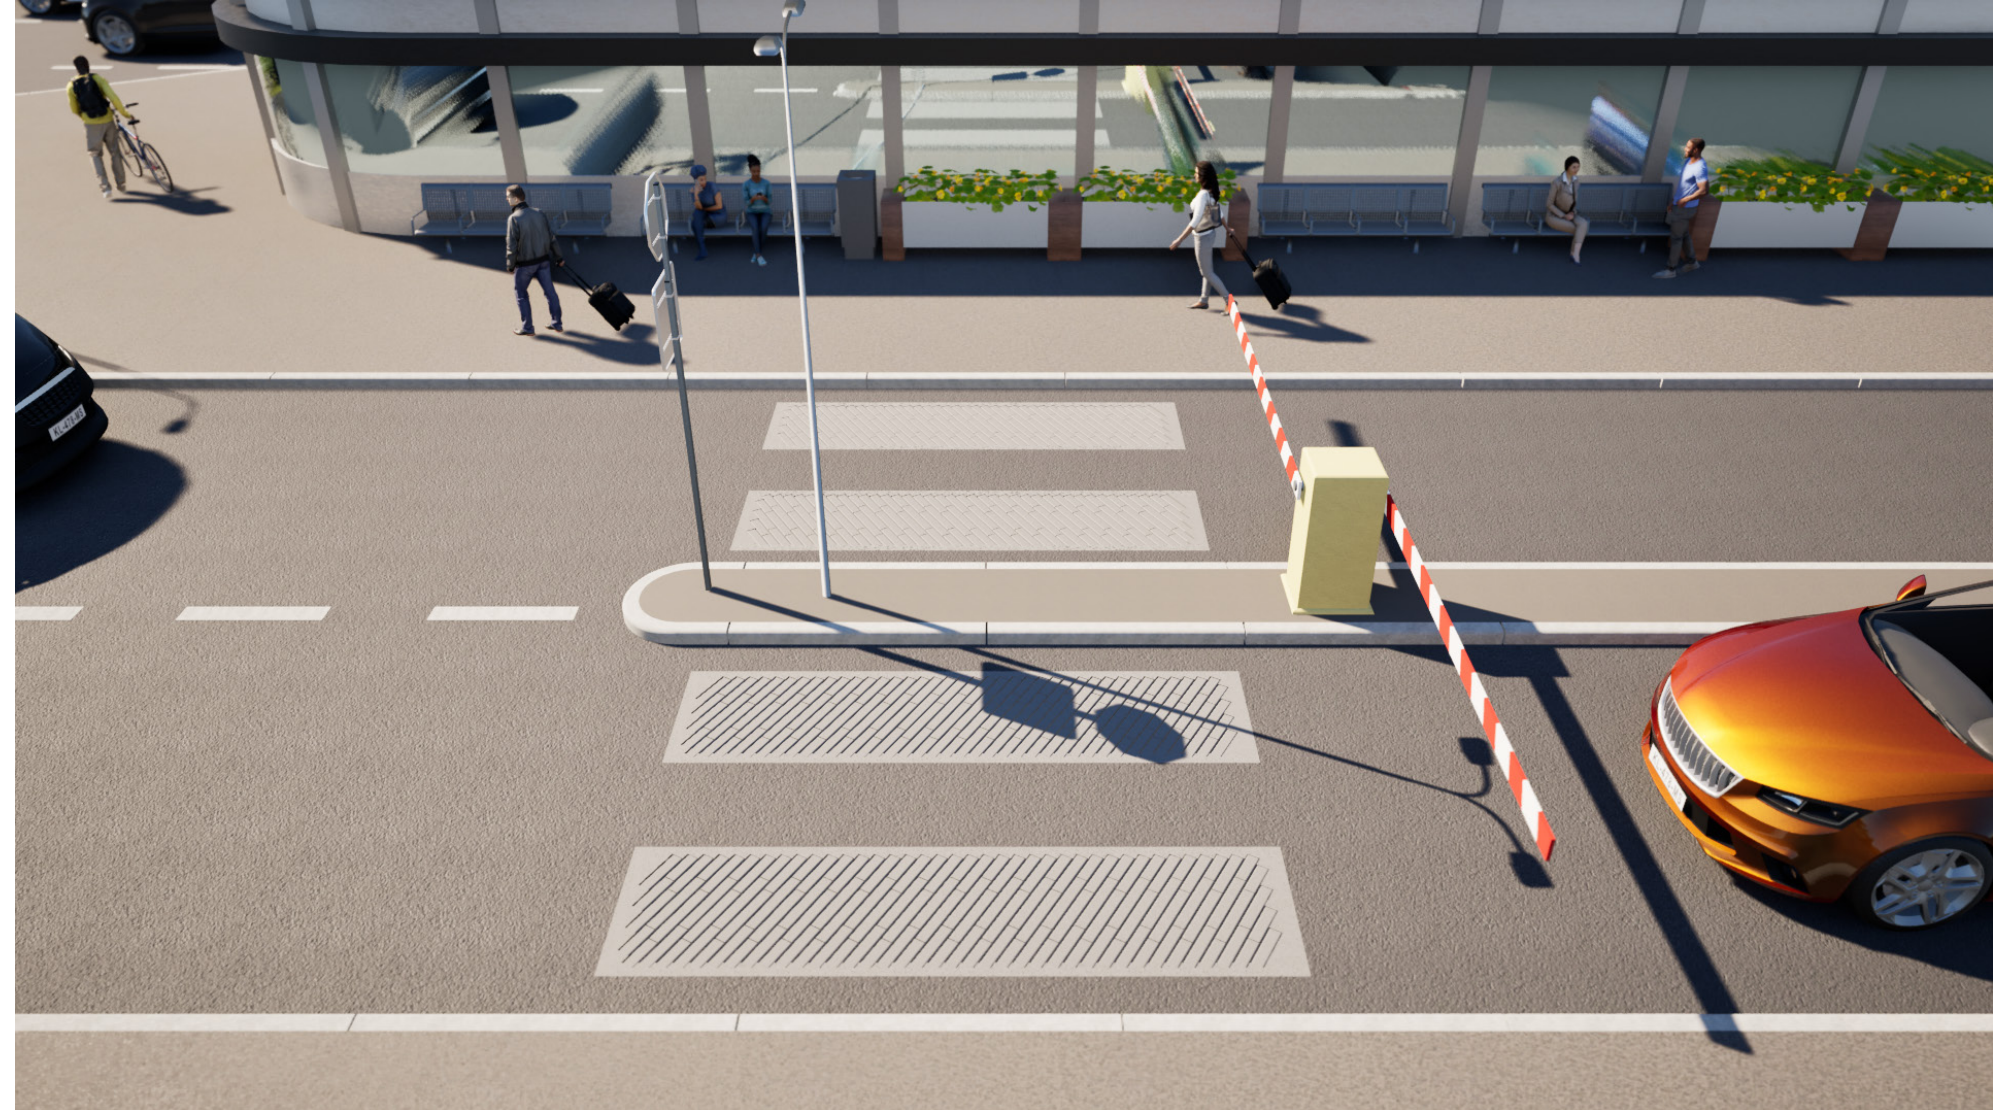

# PROJECT 08.

## Sostratus Energy Project 02...

*Sostratus Energy Project 02 showcases light-duty energy panels designed for cars in high-traffic public areas such as airports. These innovative systems capture energy from everyday vehicle movement, providing a practical and sustainable solution for generating clean power in urban environments.*

Client: Josh Beresford @  
Sostratus Energy

# THANK YOU

## FOR YOUR TIME
